Basic information

Since 01.10.2017, it has been possible to recommission vehicles subject to registration to the same owner online as part of the 2nd stage i-Kfz. The Bremen registration authority provides an online portal for this purpose.

After a successful application, the registration authority issues the new registration certificate part I as well as the seal sticker(s) on sticker carrier(s) and sends the registration documents including the fee notice to the applicant. The sticker holder(s) must be affixed to the license plate(s) by the holder. Corresponding instructions are enclosed with the letter from the licensing authority.

In the event that the examination of the Internet-based application reveals that one of the registration requirements for re-registration is not met, the applicant will be informed of this on the screen and can correct it if necessary

Reserve a license plate:

If you would like to have a preferred license plate, you must do this via the link to "Internet-based vehicle registration". You will find the link under "Further information" - Online service" - "Online vehicle registration - i-Kfz". This is the only way to generate the required PIN.

- The applicant is a natural person and has an account for the collection of vehicle tax (for legal entities, online - re-registration is not possible for the time being).
 - payment of the fee by means of ePayment system
