Basic information

The laying or modification of the laying of cables is subject to approval.

When applying for route approval, telecommunications companies and companies commissioned under § 68 (3) of the Telecommunications Act may apply for the approval of the provider of the infrastructure charge to relocate or modify telecommunications lines.

Requirements

To use this service you need a Business service account.

To apply for it legally you need

- a license certificate from the Regulatory Authority for Telecommunications and Post,
- the participation of organisations concerned by the measure.
- They must have checked or verified the route of the pipeline to other pipelines. For research, we recommend that you contact the ASSIP management information centre:
