- [Bürgeramt](#)

Basic information

The license plate is issued if the vehicle is to be driven abroad under its own power

Requirements

- There must be no arrears of fees and expenses from previous registration processes. In the event of arrears, the registration authority may not register the vehicle until these have been settled.
- Written direct debit authorization for the collection of vehicle tax

What documents do I need?

- Valid identity card, passport or electronic residence permit (eAT) as well as the original national passport of the vehicle owner applying for the permit
- in case of representation with written power of attorney

additionally: identity card or passport of the authorised representative

- electronic insurance confirmation (eVB) - export

- Registration certificate part II or old vehicle registration document

e.g. TÜV, DEKRA, GTÜ, KÜS, GTS, FSP

or

additionally:

- Current and valid business registration and, if available, current and valid excerpt from the commercial register (also as a copy)

- Power of attorney, if the person authorized to dispose does not personally submit the application on site

Procedure

- An application for registration must be submitted to the registration authority. The application can also be submitted by a representative (e.g. car dealer) with a written power of attorney.
- There is an obligation to present the vehicle for identity verification.
- If the vehicle was previously registered, the license plates will be stamped. Subsequently, the export license plate will be assigned for the duration of the liability insurance, but for a maximum of one year.
- The vehicle must have valid proof of the main inspection (HU) for the registration period (i.e. until the end date of the export license plate). If the due date of the main inspection is before the end of the export period, you must submit an inspection report from an officially recognized inspection organization on the new main inspection.
- Applications must always be submitted at the main place of residence. For applicants without residence in the FRG, the application must be submitted to the vehicle registration office responsible for the location of the vehicle.

Note:

Since July 1, 2010, export license plates have been subject to vehicle tax. Vehicle tax must be paid upon registration for the duration of the export license plate's validity. The minimum taxation period is one month.

Tip:

The license plates can be produced during registration. Private providers have set up near the registration authorities for this purpose. The cost of the plates is not included in the fees. The license plates are stamped by the registration authority, i.e. they are provided with stickers.
