More information

On July 1, 2010, an amendment to the Motor Vehicle Tax Act came into effect. The following changes apply to registrations from 1.7.2010:

- When registering a vehicle, a SEPA direct debit mandate for the collection of the motor vehicle tax is required. A SEPA direct debit mandate issued for the first taxation is also valid for subsequent years.
- As of 1.7.2010, export license plates are subject to vehicle tax. The vehicle tax must be paid upon registration for the duration of the validity of the export license plate (SEPA direct debit mandate). The minimum taxation period is one month.

Paragraphs 3 and 4 of the Vehicle Registration Ordinance (FZV) regulate which vehicles are subject to registration.

- Vehicle tax exemption or reduction as a result of severe disability:
 - Severely disabled people with the mark "H", "BI" or "aG" in their severely disabled ID card continue to be exempt from vehicle tax. Based on the proof in their ID card, they do not have to submit a direct debit authorization. Further information is available from the main customs office in Bremen.
- electronic confirmation of insurance (eVB):
 - You can obtain the confirmation of insurance regarding your motor vehicle liability insurance from the insurance company of your choice. In most cases, you can request the insurance confirmation by telephone from your insurance company. Since March 1, 2008, the insurer can give you an insurance confirmation with a 7-digit alphanumeric VB number, which the registration authority uses to retrieve the

insurance data electronically from the central database of the German Insurance Association.

If, in the course of registration, it becomes necessary to issue a registration certificate Part II (formerly vehicle registration certificate) for the first time, the vehicle must always be identified by the registration authority by presenting the vehicle.
