

Disburse funding for private secondary schools

Learn more about grants for private secondary schools in the state of Bremen here.

Competent Department

- [Die Senatorin für Kinder und Bildung | Referat 13 – Finanzmanagement](#)

Basic information

The sponsor of an approved alternative school that is operated on a non-profit basis receives a grant from the state.

The grant may be awarded for the first time after 3 years have elapsed since the start of teaching.

The grant is determined for a school year from the pupil cost rate multiplied by the number of pupils.

The pupil cost rate is 72.3 percent for elementary schools, 76 percent for high schools and the Waldorf School, and 93 percent for high schools of the actual personnel expenses of the corresponding public schools. The subsidy is adjusted in accordance with the development of the pupil cost rates.

The number of pupils takes into account those pupils of the respective alternative school who have their home in Bremen and attend the alternative school in the respective month.

Requirements

Approval as a substitute school according to the Bremen Private School Act

What documents do I need?

- Reporting of the number of students

Procedure

After the private schools have reported the number of students on 15.10 of each year, the subsidies are paid by bank transfer.
