

Registering students for admission to a support center

Do you have a school-age child who has been diagnosed with special educational needs for hearing, vision or physical and motor development and would like to be educated in a special education center as an alternative to inclusive education?

Competent Department

- [Die Senatorin für Kinder und Bildung | Referat 24 - Schulbetrieb, Schulentwicklung, Beratung und Aufsicht –Allgemeinbildende Schulen–](#)

Basic information

The special centers for hearing, vision and physical and motor development can be selected as an alternative to inclusive schooling at the request of the parents. For this purpose, an informal application is submitted to the responsible school supervisor at the Senator for Children and Education and a decision is made.

Requirements

Diagnosed special needs hearing, vision or physical and motor development.

Procedure

The legal guardians inform themselves about the possibilities of schooling for their child at the support center responsible for them and, if necessary, submit an informal application to the responsible school supervisory authority at the responsible office of the Senator for Children and Education. This application will be examined and decided upon there.

Legal bases

- [§ 22 Bremisches Schulgesetz \(BremSchulG\)](#)

What deadlines must be paid attention to?

Not specified.

How long does it take to process

Not specified.
