

Online - E-Kennzeichen

Due to nationwide regulations, the online portal for digital vehicle registrations (iKfz) had to be deactivated on January 1, 2024. The vehicle registration office does not currently offer online services. Work is currently underway to resume digital services. In the meantime, the analog services of the vehicle registration office are available to you. We apologize for the inconvenience.

Pure battery electric vehicles, externally rechargeable hybrid electric vehicles and fuel cell vehicles can receive an e-license plate upon application.

Competent Department

Basic information

The application can be submitted as part of the online registration within the registration or transfer within the I-Kfz stage 4.

If it is not possible for the registration authority to clearly assign the vehicle, an expert opinion from a testing organization or a manufacturer's certificate must be submitted as suitable proof.

Externally chargeable hybrid vehicles may have carbon dioxide emissions of no more than 50g/km and must have a minimum range with purely electric drive of 30 km (40 km from 01.01.2018).

Since 01.10.2017, the E license plate can also be assigned as a seasonal license plate.

What documents do I need?

- For vehicles already registered:
 - Registration Certificate Part I
 - Registration Certificate Part II
