## Basic information

Blind or severely disabled people who have their habitual residence in Bremen are entitled to financial support to compensate for disability-related disadvantages or additional needs. The state care allowance is paid as a monthly allowance and is independent of income and assets:

- The state care allowance currently amounts to 536.96 euros per month.
- Children under the age of 18 are entitled to a state care allowance of currently EUR 268.48 per month from the age of one.
- Care insurance benefits are offset in full against the state care allowance. This can reduce or eliminate the entitlement to state care allowance.
- The income and asset-dependent care and blindness assistance benefits in accordance with SGB XII can also be claimed if applicable. The state care allowance is offset in full or in part.

## Requirements

Persons are considered blind if their better eye has a visual acuity of no more than 2 percent or an equivalent limitation.

Severely disabled are the following persons:

1. Persons with disabilities of the upper extremities equivalent to the loss of both hands (faint-handed) with a substantial handicap.
2. Persons with loss of both arms in the area of the upper arms
3. persons with loss of three limbs

4. Persons with paralysis or other disabilities of movement, if the disabilities are equivalent to the loss of three limbs
5. paraplegic people with paralysis of the bladder and rectum
6. brain-damaged persons with severe physical and mental disorders and disabilities of use of several limbs
7. other persons whose condition requiring permanent hospitalization or whose need for care is so exceptional that their disability is comparable to the disability of persons referred to in points 1 to 6.

## Procedure

An ophthalmologist's certificate is required for the application for state care allowance due to blindness. If necessary, an expert examination will be carried out to determine the blindness. For blind people who have the mark BI on their severely disabled ID card, the eligibility requirements are deemed to be met without an expert examination. A medical certificate and, if applicable, the notification of benefits from the nursing care insurance fund are required for the application for state nursing care allowance due to severe disability (§ 1 Para. 3 LPfIGG).

An application for state care allowance can be submitted to the responsible social center of the Office for Social Services or specialized service.

The state care allowance is granted from the month of application.

## Legal bases

- [§ 1 Landespflegegeldgesetz](#)

## More information

- No additional payment will be made for past years in which no application was made due to ignorance. Only the date of receipt of the application counts.
- The state care allowance for blind people is income-independent and does not correspond to the social welfare benefit "blind assistance" within the framework of "assistance in other life situations" according to federal law! These are two different services.

## What deadlines must be paid attention to?

Not specified.

## How long does it take to process

Not specified.

## **What are the costs?**

Not specified.

## **Frequently asked Questions**

- **What is the difference between assistance for the blind and state care allowance?**

Assistance for the blind is a federal benefit dependent on income and assets in accordance with SGBXII. State care allowance is a state benefit that is independent of the financial situation of the applicant and is based on the regulations for state care allowance.
