

Pre-filled tax return (VaSt) - retrieve certificates

How do I receive the pre-completed tax return?

Competent Department

- [Finanzamt Bremen](#)

Basic information

With the pre-filled tax return, it is possible to retrieve the data provided to the tax administration by employers or insurance companies regarding his person for the last 4 years. In addition to

Name,

Address and

Religious affiliation

also the

Wage tax data,

Certificates of receipt of pension benefits

Contributions to health and long-term care insurance and

Riester and Rürup contributions

are made available for retrieval.

This reduces the tedious search for certificates sent by paper.

In addition, input errors are avoided because the retrieved data can be transferred to the electronic income tax return if desired.

- The prerequisite for this is a one-off registration on the ElsterOnline portal with the personal identification number and registration for receipt retrieval.
