Basic information

Plastic waste is a material consisting of polymers, a chemical substance known as plastic waste. Plastics can be found in almost all products, such as cell phones, bicycle tires, fishing nets, garden chairs, watering cans, wash bowls, cover film or car parts. You can hand in plastic waste at the recycling stations.

The plastic waste that is accepted at the Bremen recycling stations includes, for example, laundry baskets, tubs, garden furniture and flower tubs.

Plastic car parts, for example, are not accepted.

Requirements

- The delivery of waste and recyclable materials is only permitted with vehicles with a permissible total weight of up to 3.5 tons.
- The delivery of waste and recyclable materials must be sorted by type and free of harmful contaminants and adhesions.
- The plastic waste comes from a private household in Bremen that is connected to the municipal waste disposal system.

What documents do I need?

- Official proof of identity or fee notice (original)

In justified cases, the joint presentation of the official proof of identity and the fee notice may be requested.

- Declaration of waste origin

Upon request, the deliverers must sign a declaration stating their name, address including telephone number and presenting official proof of identity, in which the exact private origin of the waste and/or recyclables is stated and confirmed.

Procedure

- You can dispose of plastic waste at the recycling stations.
- The waste and recyclable materials must be placed in the appropriately labeled bins or containers.
- Waste/recyclables must be delivered in transport containers (e.g. bags, baskets or cardboard boxes).
 - It must be possible for one person to safely load the transport containers into the container via a stairway/access.
 - Transport packages that are wider than the container access steps or that can only be transported by two people will be rejected for safety reasons.
 - Waste/recyclable materials transported on open tarpaulins will also not be accepted unless the waste/recyclable materials are accepted at ground level (not in a container).

Legal bases

- [§ 20 Kreislaufwirtschaftsgesetz \(KrWG\)](#)
- [§ 8 Absatz 5 Abfallortsgesetz](#)

What deadlines must be paid attention to?

There are no deadlines.

How long does it take to process

If there is a high volume of customers, there may be waiting times at the recycling stations.

What are the costs?

No costs are incurred. The disposal of plastic parts is financed via the waste fee.
