

Online - registration for car dealerships and commercial registration services

We offer an online function for authorized registration services and car dealerships.

Competent Department

- [Kfz-Zulassungen](#)
- [Bürgeramt](#)

Basic information

The module is aimed at commercial customers. After authentication, car dealerships and commercial registration services can access input screens for vehicle registration and deregistration processes.

Requirements

Access data can be applied for informally at Bürgeramt - Kfz-Zulassungen.

The application must be accompanied by:

- Copy of the current identity card or passport of the trade owner (or all trade owners)
- Business registration
- in the case of legal entities: additional excerpt from the commercial register and identity card of all managing directors or authorized signatories
- Information from the Federal Central Register (certificate of good conduct, document type 0)
- Information from the Central Trade Register

Procedure

Car dealerships, commercial registration services can carry out preparatory work for registering, deregistering and re-registering vehicles online. The information entered is checked for plausibility before a data record is accepted by the procedure.

The actual process of registration or deregistration takes place as before at the Citizens' Registration Office (Bürgeramt - Kfz-Zulassungen), but is faster thanks to a simple transfer of the pre-recorded data.

The Citizens' Registration Office (Bürgeramt - Kfz-Zulassungen) takes over the data from the upstream Internet database and prepares the vehicle documents.

More information

The online reservation of desired license plates is possible for every customer via the adjacent link to "Wunschkennzeichen" without special authorization.

How long does it take to process

1 week for certification purposes
