

Information on the polling station

Where's my polling place?

Competent Department

- [Statistisches Landesamt Bremen - Wahlen](#)

Basic information

The election office determines the polling stations in good time before elections (European Parliament, German Bundestag, Bremen Parliament). The location of your polling station is indicated on your election notification. You can vote at these polling stations between 8 a.m. and 6 p.m. on Election Sunday.

With the help of an interactive application from the Election Office, you can conveniently search for your polling place and see how to get there on the map. You can find the interactive polling station search under "Further information" - "Online service" - "Polling station finder".
