

# Application for a permit and establishment of a crossing

## Competent Department

- [ASV - Amt für Straßen und Verkehr](#)

## Basic information

Here you can apply for a crossing of footpaths, cycle paths or green spaces by vehicles, e.g. within the framework of a property entrance.

## Requirements

The owner, heritable building right holder or usufructuary of a property bordering on the road is entitled to apply. If the property does not border the road and is connected to it exclusively by a drivable access secured under public law via an adjoining property, the owner, heritable building right holder or usufructuary of the rear property is also entitled to apply.

Details of the requirements can be found in the online service (see right-hand column).

## Procedure

The crossing shall be constructed and maintained by the road authority. The costs of the construction, including an administrative fee and an overhead surcharge of 10% on the construction costs, shall be borne by the permittee. The applicant has the option to nominate an approved road construction company to carry out the works in compliance with the conditions imposed by the Roads and Traffic Authority.

For details of the procedure, please refer to the online service (see right-hand column).
