

# Reporting traffic signal and street lighting faults

Would you like to report a faulty traffic light (traffic signal system) or street lighting?

You can report this so that the damage or fault can be rectified.

## Competent Department

- [ASV - Amt für Straßen und Verkehr](#)

## Contact Person

- [Verkehrsmanagementzentrale](#)

**Verkehrsmanagementzentrale**

+49 421 361-16666

## Basic information

To have a fault or damage rectified as quickly as possible, this can be reported on the website (to be found at: [www.asv.bremen.de](http://www.asv.bremen.de) - Service - Fault reports) of the Department of Roads and Traffic using the online form or by calling the emergency services directly.

## Procedure

Reports can be made either using the online form or by calling the emergency services. The traffic management center (VMZ) is the emergency service for traffic signal malfunctions: Tel. 0421 361-16666), for lighting faults swb: Tel. 0421 359-1050.

## More information

The following information must be provided as a minimum: Place and type of damage, telephone number or e-mail address for queries
